Food processing potentials stressed at ICAR meet

GUARDIAN NEWS BUREAU
SHILLONG, DEC 11: A conference on "Startups and MSMEs in Food Processing" was organised today by the Associated Chambers of Commerce and Industries of India (ASSOCHAM) in collaboration with Ministry of Food Processing Industries (MoFPI), and ICAR Research Centre for NEH Region, and SIDBI for providing a platform to aspiring food entrepreneurs,

existing SMEs in food, agriculture professionals, students, progressive farmers,

Self Help Groups, etc. for sharing their views and learn about latest initiatives, schemes and opportunities available in the field of Agro Food Industries.

More than 100 participants from the state attended the conference.

In his address, governor

Tathagata Roy said Meghalaya has immense potential in the food processing sector as its base economy is agrarian and that the potential of agro based industry needs to be developed.

He said apart from agricultural produces, meat processing can also be taken up in a big way in the state.

ICAR NEH Region director Dr Narendra Prakash

said the state is one of the fastest growing in terms of agriculture hence the opportunity should be tapped for agri-business.

He also highlighted the strengths of Indian agriculture and the exemplary work done by ICAR and Meghalaya state to promote food processing.

ML Suiam, OSD, Directorate of Food Processing, Government of Meghalaya highlighted the challenges faced by food processing industry in general in the state of Meghalaya like infrastructure, market connectivity, skills etc.

He highlighted that agri surplus in the state gets wasted and needs to be tackled in a better way, and food processing is the only solution for the same.

Chetan Vij, assistant director, ASSOCHAM said the objective of the conference is to create awareness for the budding entrepreneurs about the various MoFPI schemes.
